*My Pooten Color Scheme?

Projects

- Have the websites in "window-themed" cards - Title centered in title bar
- Fullscreen button opens up page in new tabs
- Either the page works & is interactive or clicking pulls up description modal
- Current cards become larger with full descriptions
 - ↳ Launch side button in corner
 - ↳ Launch side in a window themed wrapper within the current page
 - ↳ Window close & fullscreen work
- Mobile?

- Change experience section to a horizontally scrolling timeline with modal pop-outs w/ job description
- Hobbies → Cards w/ pictures
